

TEKLYNX BACKTRACK

ASSET TRACKING

Asset tracking software

BACKTRACK, a check-in check-out software, gives you the power to track the exact location, movement and usage of any item accurately and efficiently. From file tracking to inventory control to asset management, there are no limits to the number or type of applications that BACKTRACK can handle.

BACKTRACK gives you the flexibility to handle all of your tracking needs — today and in the future.

BACKTRACK includes:

Application templates to get you up and running quickly

Unlimited reporting capabilities to create and print customized tracking reports

Support for mobile devices and Portable Data Terminals (PDTs), making remote tracking quick and easy

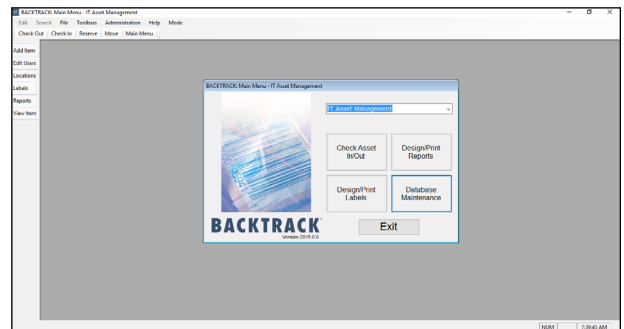

Business benefits

- **Flexible All-in-One Tracking Solution** - BACKTRACK is an all-inclusive tracking solution that leverages barcoding technology to track your assets and inventory.
- **Powerful Reporting Offers In Depth Insight** - Use BACKTRACK's pre-defined reports or create your own using its wizard-driven or advanced report designer mode.
- **Easy Label Creation Makes Tracking Simple** - BACKTRACK works seamlessly with TEKLYNX label design software, allowing you to create labels that meet the most common compliance standards and labeling requirements.
- **Customizable Security Standards Meet Your Needs** - BACKTRACK offers multi-level password protection to meet rigid compliance standards, or it can be disabled for everyday inventory control.

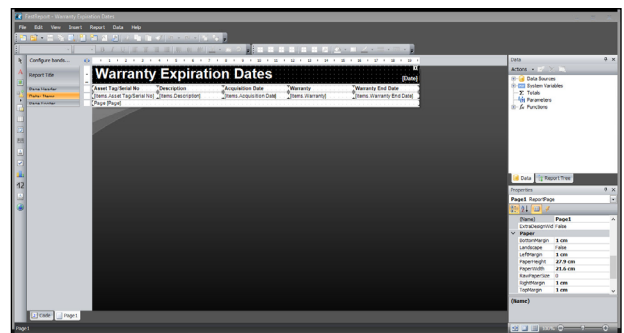

About TEKLYNX

TEKLYNX International helps supply chains work better.
