

# TEKLYNX Solutions & Services

For over 30 years TEKLYNX has helped over 750,000 companies Barcode Better, and today TEKLYNX is the world's leading developer of barcode labeling software solutions. Whether for a single location shop with a handful of products or a global enterprise with thousands of product lines, TEKLYNX provides solutions for all labeling complexities. At the root of everything we do is our desire to go beyond basic software development to create solutions that are designed to help your business increase efficiency and streamline operations.

## Label Design Solutions

TEKLYNX provides robust barcode label design software solutions to meet any level of labeling complexity.

High Complexity

### CODESOFT

- ✓ Highly complex labeling environments
- ✓ RFID support
- ✓ Complex database integration
- ✓ Regulatory compliance, including:
  - ✓ Unique Device Identification (UDI)
  - ✓ Global Harmonized System of Classification of Labeling of Chemicals (GHS)

Medium Complexity

### LABELVIEW

- ✓ Medium complexity labeling environments
- ✓ Simple database connections
- ✓ Customizable print forms
- ✓ Intuitive interface

Low Complexity

### LABEL MATRIX

- ✓ Simple labeling environments with fixed data
- ✓ Familiar Windows interface
- ✓ Helpful label design wizards

## Enterprise Label Management Solutions

TEKLYNX' enterprise label management solutions are designed for more complex labeling needs, including solutions to centrally manage label templates and automate printing across an entire enterprise.

Maximum Complexity

**TEKLYNX CENTRAL** is a centralized, browser-based label management solution for the whole enterprise.

TEKLYNX has developed two industry-specific versions of TEKLYNX CENTRAL:

- ✓ **TEKLYNX CENTRAL CFR** for the healthcare industry (comply with 21 CFR Part 11 and UDI)
- ✓ **TEKLYNX CENTRAL GHS** for the chemical industry (comply with GHS)

**SENTINEL** integrates with any ERP system to completely automate label printing for minimal human interaction, saving time, money, and increasing efficiency.

**LABEL ARCHIVE** is TEKLYNX' user management, label approval and print tracking, and label security application. Companies that need to track every aspect of the label design process can benefit from LABEL ARCHIVE.

# TEKLYNX Solutions & Services

## Professional Services

TEKLYNX offers a wide variety of services to help you successfully implement and maintain your label management solution.

## Assisted Install

Leverage TEKLYNX to assist your business with the installation and configuration of your labeling software to ensure you are maximizing its capabilities. Whether through assisted installations done by remote connection or on-site installation, we can get you up and running quickly and effectively.

## Custom Label Design

If you don't have the time or resources to create your own custom labels, let us create them for you! TEKLYNX employees create labels every day; leverage us to create your labels quickly and accurately, regardless of the complexities and customization required by your business.

## Custom Development

Leverage TEKLYNX' 30+ years of experience to identify the requirements, create the specifications, and build your custom printing interface for your business to provide separation of designing and printing.

Other custom development services available are custom front end applications, VBScript (Visual Basic Scripting), database integration, and more.

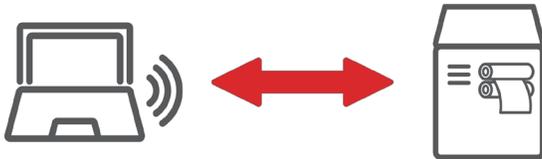

## Training Services

TEKLYNX can help you with designing your first label or educate you on the capabilities of your TEKLYNX solution. TEKLYNX offers individualized training sessions based on your application, designed specifically to meet your needs or requirements. For general training on TEKLYNX barcode label design software, we offer monthly webinars.

## Consulting

Every company grows at a different rate. TEKLYNX products grow with you and help to ensure that your labeling process is as lean as possible. TEKLYNX offers web-based and on-site consulting to assess your current labeling process and recommend a solution that will improve efficiencies and processes for your business.

## TEKLYNX Native Printer Drivers

TEKLYNX has developed over 4,000 native printer drivers that help you achieve true What You See Is What You Get (WYSIWYG) printing. Native printer drivers are designed to work specifically as the translator between your TEKLYNX software and your label printer, ensuring that what you see on the screen is exactly what will come out of your printer. While other label software providers depend on Windows printer drivers that compromise accuracy, TEKLYNX invests in native printer driver development for all common and many uncommon label printers.
