Introducing TEKLYNX 2019 Barcode Label Software Solutions
Designed to support what's behind the barcode

There are thousands of ways to get a barcode onto a label, but the best way is the one that sets your company up for success. Because barcode software isn't just something you buy – it's an integrated solution that makes your company work. Designed to support what's behind the barcode, TEKLYNX 2019 products set you up for success now and into the future. Print faster, automate repetitive manual steps, and prevent errors with TEKLYNX 2019.

NEW ENHANCEMENTS IN SENTINEL 2019

Eliminate the need for manual data entry, reduce errors, and simplify the printing process with label printing automation. TEKLYNX print automation solution, SENTINEL, enables printing out of an ERP, WMS, or other business system, including custom applications.

- ✔ **Compatibility with CODESOFT 2019** for ease of use
- ✔ **Windows Server 2019 compatibility** gives you the ability to work in the most current operating system
- ✔ **Updated mapper interface** is modern and easy to use

NEW ENHANCEMENTS IN LABEL ARCHIVE 2019

Many industries are regulated to enforce labeling workflows and ensure that the same process is followed every time a label is generated. LABEL ARCHIVE gives you full traceability of label design, storage, and printing to support compliance with industry regulations and internal process requirements.

- ✔ **Compatibility with CODESOFT 2019** for ease of use
- ✔ **Windows Server 2019 compatibility** gives you the ability to work in the most current operating system
- ✔ **New metadata feature** saves you time and space in your label storage area
