

TEKLYNX CENTRAL 8.0

Centralized label management
with browser-based printing

ABOUT

TEKLYNX CENTRAL combines label design, approval, print automation, and reporting into one solution to help companies across industries control labeling from one central location. By eliminating client installations and enabling label printing from a browser, you increase operational efficiency and reduce IT overhead.

TEKLYNX CENTRAL also meets the needs of businesses with multiple locations or partners, such as suppliers or contract manufacturers. It offers on-premises, cloud, or hybrid deployment and seamlessly integrates with existing business systems and data sources, including SAP, Oracle, and Microsoft.

With each version release, we make it easier for you to manage your labeling and business processes.

TEKLYNX CENTRAL 8.0 ENHANCEMENTS

- ✓ Better management of unused printers and inactive users
- ✓ Simpler integration and configuration for cloud deployments
- ✓ Increased visibility into administrative functions and tasks
- ✓ Automatically email labels, pick lists, or shipping notices with print requests
- ✓ Support for Windows Server 2025, leveraging built-in HTTPS and TLS 1.3
- ✓ Compatibility with Microsoft® .NET Framework 8.0

TEKLYNX CENTRAL 8.0

Your all-in-one labeling solution

- ✓ Label design
- ✓ Low-code integration
- ✓ Print automation
- ✓ Approval workflows
- ✓ Version control and auditing
- ✓ Centralized label storage
- ✓ Browser-based label printing
- ✓ Always-on high-availability

We make great companies even better with centralized label management and dedicated customer support.

"TEKLYNX promptly answered any question I had and was always willing to set up a call to help walk me through the entire setup process. When you're doing something that's new and technology-focused, it's nice to have that level of support."

Jessica Burns
All Seasoning Ingredients, Inc.
