

# TEKLYNX CENTRAL 9.0

Centralized label management  
with browser-based printing

## ABOUT

TEKLYNX CENTRAL combines label design, approval, print automation, and reporting into one solution to help companies across industries control labeling from one central location. By eliminating client installations and enabling label printing from a browser, you increase operational efficiency and reduce IT overhead.

TEKLYNX CENTRAL also meets the needs of businesses with multiple locations or partners, such as suppliers or contract manufacturers. It offers on-premises, cloud, or hybrid deployment and seamlessly integrates with existing business systems and data sources, including SAP, Oracle, and Business Central.

With each version release, we make it easier for you to manage your labeling and business processes.

## TEKLYNX CENTRAL 9.0 ENHANCEMENTS

- ✓ Improved management of user account and license usage
- ✓ More control over label approval process and visibility of changes
- ✓ Added flexibility of user and group permission configurations
- ✓ Option to automatically reset a locked user account after a set time
- ✓ Print page alert when labels associated with work orders were already printed
- ✓ System-generated email sent to new users with login credentials
- ✓ Modernized core platform components with Microsoft® .NET 10
