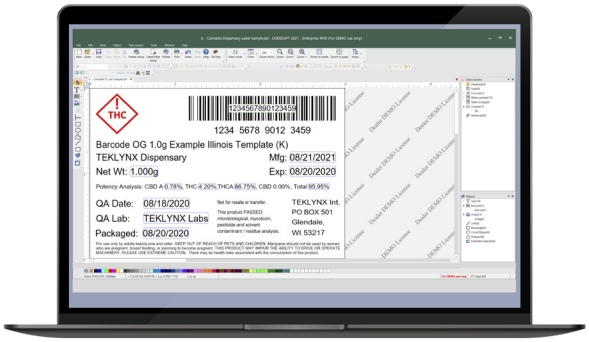
Easily Label and Track Your Cannabis Products

TEKLYNX CODESOFT and ZEBRA

Changing state, federal, and local regulations can make it difficult to ensure compliance while you grow your cannabis business. TEKLYNX CODESOFT and Zebra help you do it easily by printing recreational and medical marijuana barcode labels that meet all the latest seed-to-sale tracking and regulatory requirements.



Looking for a better way to:

- Design and print labels for cases, cartons, and packaging.
- Stay compliant with state-specific and always-updated label templates.
- Create compliant labels with color label design and warning pictograms.
- Integrate your labeling with Metrc, BioTrack, and other software.
- Connect to your databases to add preferred product info to your labels.
- Label and track your products by strain, type, weight, and THC/CBD levels.
- Produce your own labels in-house and on demand, with less waste.
- Centralize and control labeling across multiple locations.

Seed-to-Sale Labeling for Every Stage

TEKLYNX CODESOFT software is designed to work seamlessly with your seed-to-sale tracking software and Zebra printers to help you design and produce your own labels in-house, on demand, and with less waste.

Cultivation

- RFID labels for growing and cultivation with seed-to-sale software integration
- Accurate and compliant labeling for trimming, drying, and curing

Testing Lab

- Test tube and lab labels for cultivated plant testing and analysis
- Support for pass/fail, dates, lab ID, cannabinoid profiles, potency, and more

Processing and Manufacturing

- Black-and-white labels with dynamic barcodes and variable data
- Database integration with Metrc, BioTrack, and other systems

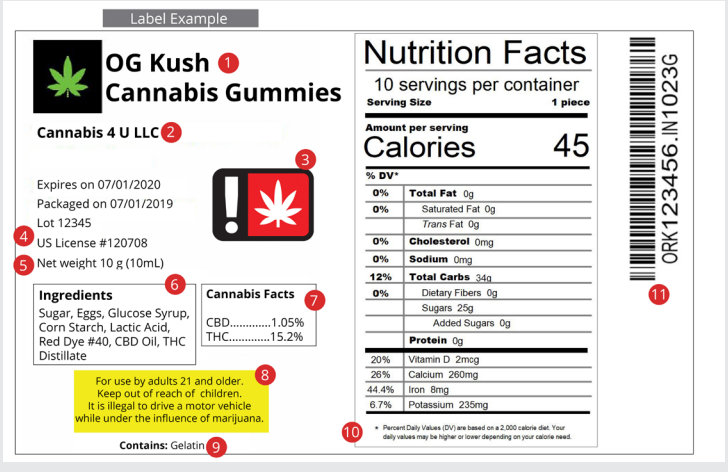
Dispensary and Retail

- Labels for packaging, shipping, cases and pallets, and inventory
- Document creation for pack lists, cases, purchase orders, and more

Retailers

- Accurate display of product info, lab results, and company branding
- Compliant barcoding and labeling to meet the latest regulatory requirements

Design Labels to Meet Industry Requirements



1. Name of the product
2. Licensee name and phone number or email address
3. Universal symbol
4. Licensee number and batch or lot code
5. Net quantity of contents
6. Ingredients list
7. Cannabis facts panel
8. Warning statements
9. Allergen labeling
10. Nutrition facts
11. Barcode

PRINT PREVIEW

Compatible with Zebra Printers

TEKLYNX CODESOFT RFID and barcode label software comes with native printer drivers and optimized label designs for Zebra printers, so it's fast and easy to get up and running, and start printing high-quality labels at maximum speeds.

Zebra ZT400 Series Industrial Printers

The ZT400 Series offers thermal transfer, direct thermal, and RFID printing with up to 300 dpi, plus future-proof connectivity and adaptability, and the printing industry's most rugged durability.
