Choose Your Own AUTOMATION Adventure

Start

Do nothing

Integrate a few systems

Connect your databases to CODESOFT

Use when printed variables to pull in data at print time

Efficiency gained: 10%

Total system integration

Implement TEKLYNX CENTRAL

Integrate TEKLYNX CENTRAL with your existing ERP systems

Automate label printing triggered by your ERP system

Efficiency gained: 40%

Efficiency gained: 0%

Doing nothing simply isn't an option. Manual processes will continue to cause errors and slow down your business.

CODESOFT's database connections leverage variable data to populate your label at print time, saving time and preventing errors.

Full integration with existing business systems centralizes and automates your labeling process, reducing errors and wasted time.
