CHAPTER 1

Getting Started

About this Manual

This manual is designed to provide you with the basic information you need to install TEKLYNX CENTRAL.

Typographic Conventions

This manual uses the following conventions to distinguish between different types of information:

- Terms taken from the interface itself, such as menu names, commands and button names appear in **bold**.
- Keys appear in uppercase, as in the following example:
“Press the SHIFT key.”
- Numbered lists indicate a procedure to follow.
- The sequence for selecting a command from a menu will be described, but a button is also available for many functions.
- Angle brackets <> indicate system setup information that must be entered by keyboard. Enter only the information, not the brackets.

System and Server Requirements

Processor	<p>Minimum: 2 GHz or faster</p> <p>Recommended: Duel/Quad 2 GHz or faster</p>
Operating System	<ul style="list-style-type: none"> • Windows Server 2008 SP2/2008 R2 x32/x64 • Windows Server 2012/2012 R2 x64 • Windows Server 2016 x64
Memory	<p>Minimum: 1 GB of free RAM (does not include database server)</p> <p>Recommended: 4 GB of free RAM (does not include database server)</p>
Hard Disk Space	<p>Minimum: 1.5 GB of free disk space</p> <p>Recommended: 20 GB of free disk space</p>
Supporting Software	<p>On the server: Microsoft Internet Information Services (IIS) 7.0 or higher Microsoft SQL Server 2008/2008R2/2012/2014/2016/2017, Oracle 11.2 or higher, Requires Oracle Client 8.1.7, .NET Framework 3.5 SP1 (Server and Client), 2.0, 4.5.2 (Server), ASP .NET 4.0</p> <p>On the print client: Microsoft Internet Explorer 11, Microsoft Edge, Mozilla Firefox 58.0 (x32), Google Chrome 63.0 (x32) or later</p> <p>On the label designer client: Microsoft Internet Explorer 11, Microsoft Edge, Mozilla Firefox 58.0 (x32), Google Chrome 63.0 (x32) or later .NET Framework 3.5 SP1 Microsoft Data Access Components (MDAC) 2.8 or later Adobe Acrobat Reader X or later</p>
Video Card	DirectX 9.0 minimum, Display minimum resolution: 1366x768

Additional Requirements	Administrator rights to the computer used during installation
--------------------------------	---

Other Product Documentation

Supplementary manuals for CODESOFT, LABEL ARCHIVE, SENTINEL, and the Printing Interface are provided with the installer files. For more detailed instructions on these products, refer to the corresponding product documentation.

User and administration manuals for these applications are also available online at www.teklynx.com.

CHAPTER 2

Installation

Welcome!

Thank you for purchasing TEKLYNX CENTRAL. This installation guide contains information on how to install TEKLYNX CENTRAL.

About TEKLYNX CENTRAL

TEKLYNX CENTRAL manages enterprise labeling users, licenses, and installation within one interface. The Command Center coordinates TEKLYNX' proven label design, printing, security, and tracing applications to simplify administration.

TEKLYNX CENTRAL offers the following features:

Label Design Security and Traceability – You can create all of your label templates in the label designer and secure them in the label database. All modifications and print requests are tracked in the database to provide an audit trail of print and label history.

Browser-Based Printing Interface – The browser-based printing interface uses a unique data input model that allows you to eliminate unnecessary user steps by limiting access to labels at the work order, workstation, and printer level. In addition, the configurable interface allows you to use terminology specific to your business environment, which reduces training time for new users.

Label Printing – Print requests that are sent from a host system or the browser-based user interface are processed and sent to networked printers.

Installing TEKLYNX CENTRAL

- 1 Within the provided installation files, right-click on TlxInstaller.exe and choose “Run as Administrator.”

The **TEKLYNX CENTRAL Installer** opens.

Figure 2-1 TEKLYNX CENTRAL Installer

- 2 Click **Start**. If a required Windows application is missing on your system, the installation program will prompt you to install the prerequisite file.

Figure 2-2 Required Windows Prerequisite

Click **Install** to install any required prerequisites.

Installation of Windows prerequisites may require a system reboot to complete the installation. If a system reboot is required, a message will appear prompting you to restart your computer. Click **Yes** to restart your computer.

- 3** If all required Windows prerequisites are already installed, or after the installation of any necessary prerequisites has finished, the **TEKLYNX CENTRAL Installation Wizard** appears.

Figure 2-3 TEKLYNX CENTRAL Installation Wizard

4 Click **Next**.

The **License Agreement** window appears.

Figure 2-4 License Agreement window

- 5 Read the license agreement. If you agree with the terms of the license agreement, select **I accept the terms of the license agreement** and click **Next**.

The **Customer Information** window appears.

The screenshot shows a window titled "Customer Information" with a sub-header "Please enter your information." and a small "TC" logo in the top right corner. Below the header, there are two input fields: "User Name:" with the text "Windows User" entered, and "Organization:" which is currently empty. At the bottom left, the text "InstallShield" is visible. At the bottom right, there are three buttons: "< Back", "Next >", and "Cancel".

Figure 2-5 Customer Information window

- 6 Enter your name and the name of your company and click **Next**.

The **Destination Folder** window appears.

Figure 2-6 Destination Folder window

- 7** The default installation folder is “C:\Program Files (x86)\Teklynx”. If you would like to change the installation folder, click **Change** and browse to the desired location. Click **Next**.
- 8** By default, the application services are launched as **LocalSystem** account (figure 2-7). It's possible to specify different Local or Domain account for service to run. Click **Next**.
- 9** On the next screen it's possible to specify if Online Printing Interface should be installed (figure 2-8). Select preferred option and Click **Next**.

Installing Software on a Client Workstation from Server Push

- 1 Click the **Install Label Designer on Remote Workstation** link in the Workstation Install section of the Command Center.

The **TEKLYNX CENTRAL Remote Installation** window appears.

Figure 3-21 TEKLYNX CENTRAL Remote Installation window

- 2 Click **Browse** and locate the remote workstation. Select the client workstation in the list.
Note: The user who is attempting to install the application via TEKLYNX CENTRAL must be a local administrator on the remote workstation for the installation to be successful.
- 3 Click **Install** to begin the installation.
- 4 It is often necessary to adjust firewall settings to allow for successful installation of the client applications. Refer to TC Remote Installation Guide for additional information.

Installing Client Applications Manually

You can also install the label designer and label manager applications directly from the installer files.

- 1 Within the provided installation files, there is a directory for RemoteInstall. Here you will find the necessary files for a manual installation of CODESOFT, LABEL ARCHIVE, and necessary Plugin Files for client level workstations.
- 2 The TCRemoteClientsInstall.bat will contain all necessary commands to install each component individually. Refer to Manual Client Installation Guide for more details.
